To All Members,

Due to the large influx of new members and returning members to the DTKC and the congestion of cars & trailers in the morning is becoming a problem, the executive committee would like to request that all members please abide by the following pit rules, to be in effect from June 21<sup>st</sup>, 2009.

- NO vehicles or trailers will have access to the pit area after 7am on race days or any vehicles & trailers accessing the pit area before the end of the last event, this is the request of the Executive committee and there will be no exceptions.
- As the previous meeting on May 17<sup>th</sup> there will be no unauthorised trailers to be left in the pits, particularly on the west side of the pit parking area.
- Can all persons please also abide with the no parking signs placed along fence lines, there is to be no parking of cars & trailers along either fence line at he DTKC venue.
- Can all persons parking at the top car park please consider others when parking their own vehicles.
- Pit benches are going to be targeted over the next few months, the committee are asking members to please check all benches for safety and the DTKC committee will only allow 1 bench per pit bay to comply to the following sizes only **ALL PIT BENCHES ARE TO BE NO BIGGER THAN 1200mm x 600mm** in size and erected in a safe & maintainable manner as not to be an eyesore in the pits. All benches not complying with this will be removed.

The DTKC are working on presentation of the venue and vast improvements in the pit area to tidy things up, this is why the above requests are asked of you.

The DTKC committee are looking at volunteers to help with the morning parking & traffic problems; we have sought the advice of the local SES and are still looking into this.

Yours in Dirt Karting

Kylie Chalmers

Club Secretary
